

# HLULANI SHAUN ZITHA

## SOFTWARE ENGINEER

**Johannesburg, SA | +27823714259 | [akaniese@gmail.com](mailto:akaniese@gmail.com)**

### Objective

---

Creative and detail-oriented Software Engineer skilled in React Native and full stack development, with real-world experience building community-driven apps. I bring clean code, strong debugging skills, and a passion for user-focused solutions.

### Project Experience

---

#### Aspen Feral Cat Project | Frontend tester

**2023 Feb – 2023 Nov**

- Debugged the entire website, correcting defects before deadline
- Contributed to Top 10 during Project's Day at the University of Johannesburg
- Fixed merge conflicts during the development cycle of the software
- Maintained constant communication regarding caught defects
- Link: <https://github.com/IFMTYP-2023/team2-dev.git>

#### Christian House Church | Software Engineer

**2025 February - Present**

- Developed the entire backend using appwrite.io
- Managed basic functionality such as prayer requests, login, and registration
- Managed incoming data while ensuring security storage of important information
- Planned and met church requirements from design level, including database and user interface
- Currently building a React Native mobile app, expected to launch by June 2025,
- Engineered both the database architecture and user interface from scratch based on church's requirements
