Hlulani Shaun Zitha

56 Davies Street Johannesburg, 2094, +27 82 371 4259, akaniesean@gmail.com

March 2023 to October 2023: Frontend Developer, React.js, Aspen Feral Cats Project: Tested frontend code for bugs, fixed errors, implemented functional components including a fostering circle of cat's feature and resolved merge conflicts during the project's lifecycle.

- Debugged the entire website, correcting defects before the deadline.
- Contributed to the project placing in the top 10 during Project's Day at the University of Johannesburg (18 October 2023).

March 2024 to present: Transport Coordinator: Coordinated transportation logistics for church services and events. Ensuring all students were picked up on time for Sunday services and Friday all-night prayers. Provided clear communication on bus routes to students the night before services and ensured the timely arrival of the driver.

- Tracked and monitored the experiences of first-time visitors, ensuring they found the church welcoming and accessible

April 2024 to present: Media Team Member: Led website and mobile app development (in progress) using React, React Native, and Node.js. Met regularly with the pastor to discuss functional requirements, maintaining consistent communication on the website's interface during the implementation phase.

- Planned and met church requirements from design level, including database and user interface.
- Developed the entire backend using Node.js
- Managed basic functionality such as prayer requests, login, and registration
- Managed incoming data while ensuring security storage of important information.

July 2024 to August 2024: Website Administrator: Maintained the Mpumelelo Bible Study website by ensuring smooth functionality and resolved any glitches, utilizing basic HTML and CSS.

- Designed and developed the entire frontend of the website from the ground up.

JavaScript Algorithms & Data Structures, FreeCodeCamp, September 2023

Bsc in Computer Science & Informatics, University of Johannesburg Graduate 2024

Artificial Intelligence in the 4IR (SLP), University of Johannesburg, Award 2024

African Insights, University of Johannesburg, Award 2024
